March **2011** for Life

Berlin · Sept. 17, 2011

Human rights apply to everyone— including unborn children!

Abortion does not solve problems
but rather creates new ones.
We call for support and more
effective aids for pregnant women
and families in need.

With the March for Life, we remember
the children who are killed in Germany
day after day before they are born.
At the same time, we remember the
countless women, mothers, men, fathers,
and families who suffer as a result.

We invite you to say an emphatic
Yes to Life!

13:00 Demonstration outside the office of the Federal
Chancellor (Bundeskanzleramt, Willy-Brandt-Straße,
