

# A TALK IN THE NATIONAL WEEK OF EDUCATION

Thursday evening 8th October at 20.00 hrs  
Jacob Obrechtstraat 74, 1071 KP AMSTERDAM-SOUTH

## HOW CAN YOUR CHILD BE HAPPY AND BALANCED ANNO 2015?

A combination of playing, learning and character formation

by Dr. Carien Pot-Mees  
remedial pedagogue en play therapist

*How can you contribute to the happiness of your child?*

*How do you encourage your child to reach it's full potential using the present-day knowledge and views of philosophy and pedagogy?*

*How do you build a good parent-child relationship?*

Do you ever ask yourself these questions and would you like to know what influence you have as a parent? Then you are more than welcome to this evening where you will receive lots of useful tips and advice.

Enroll by email via [info@kidsgardenamsterdam.nl](mailto:info@kidsgardenamsterdam.nl)  
or by phone tel. 06-11372295.

The evening is organised by Kid's Garden Amsterdam. Kid's Garden Amsterdam is working towards innovative child care in Amsterdam and surroundings.

The child care will be focused on an all-round development of each child at its own level.

Dr. Carien Pot-Mees is actively involved as pedagogical adviser in Kid's Garden Amsterdam.

The pedagogy of Kid's Garden Amsterdam is based on the Optimist project of the Fomento Education Group which is used in 25 countries in nurseries, primary- and secondary schools with excellent results.

Besides giving good care in a warm and caring surrounding, Kid's Garden Amsterdam will offer the children a Dutch and English programme with special emphasis on the motoric, emotional and social development as well as endeavouring to give the children a good sense of norms and values.

The activities are related to the playful world of the child with lots of attention for music, culture, movement, language and nature around a monthly changing theme.

We will require a high standard from our co-workers who will receive further and continuous education so that they can implement the latest pedagogical insights of the ever renewing Optimist project.
